

Programming Workshop Leader / Content Developer

TUMO Center for Creative Technologies is looking for a Programming specialist to join the Educational Content Development team to lead Programming workshops, create content and design educational material for TUMO's students across all our centers, working year-round to develop and fine-tune the educational curriculum at TUMO.

Duties and Responsibilities

- Design and lead Programming workshops for TUMO's students
- Work in Yerevan but travel to other TUMO locations several times a year for month-long workshops
- Develop students' skills through designing educational material for student self-learning
- Collect and evaluate students' results at the completion of every workshop and store them for their portfolios
- Examine students' self-learning results and provide daily feedback to them
- Other duties may be assigned

Education and Experience

- Working knowledge of JavaScript
- 1+ years experience building backend systems — knowledge of Node.js
- Solid understanding of object-oriented programming (OOP)
- Understanding of web markup, including HTML5 and CSS3
- Proficient understanding of code versioning tools such as Git
- Experience with JavaScript libraries and frameworks such as React.js, AngularJS, Vue.js or related
- Ability to articulate and discuss technical decisions
- Interest in the latest developments, cutting-edge technologies and desire to collaborate with colleagues

Application Procedure

Interested candidates should submit a resume by email to jobs@tumo.org. In the subject line of your email, please mention "**Programming Workshop Leader/Content Developer.**" Only short-listed candidates will be notified.
